3D Miniatures Christmas Tree

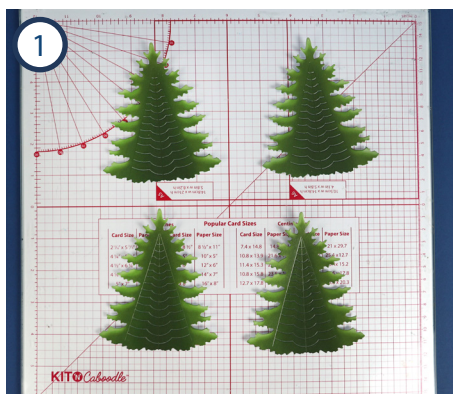

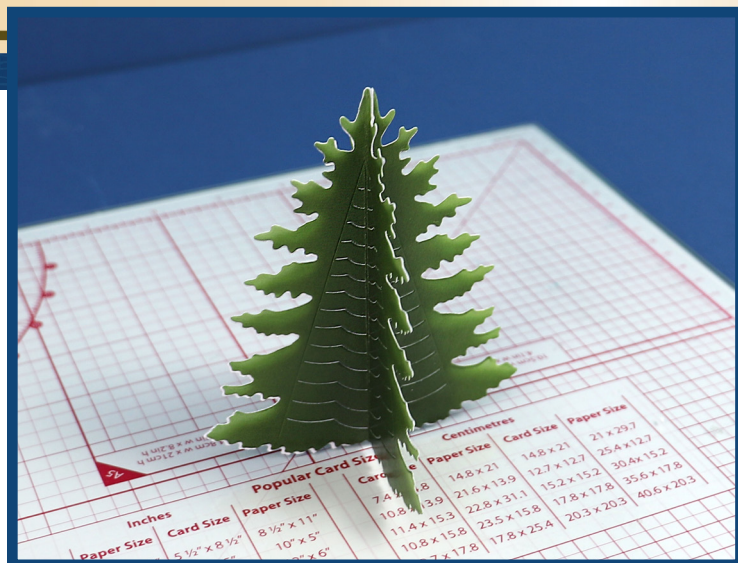

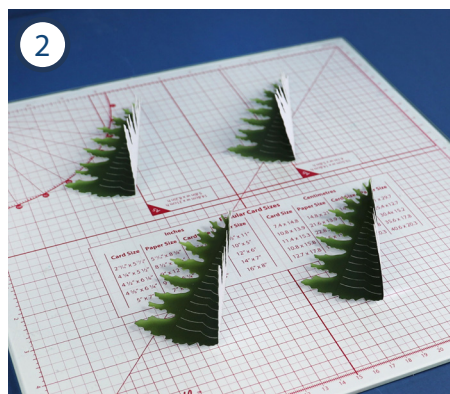

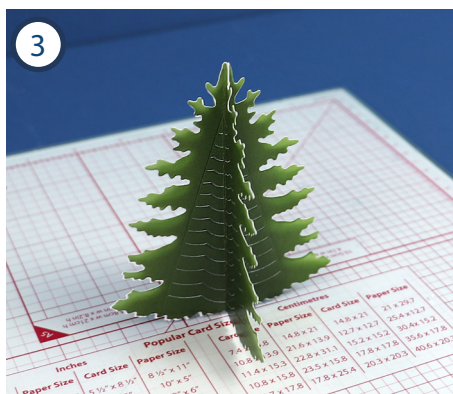

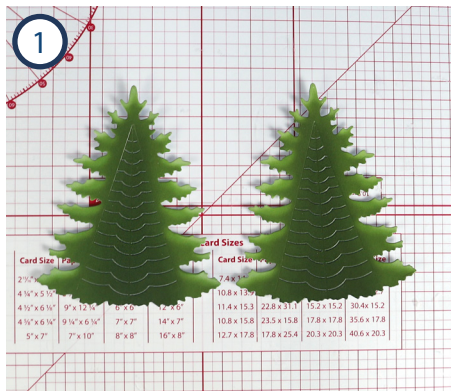

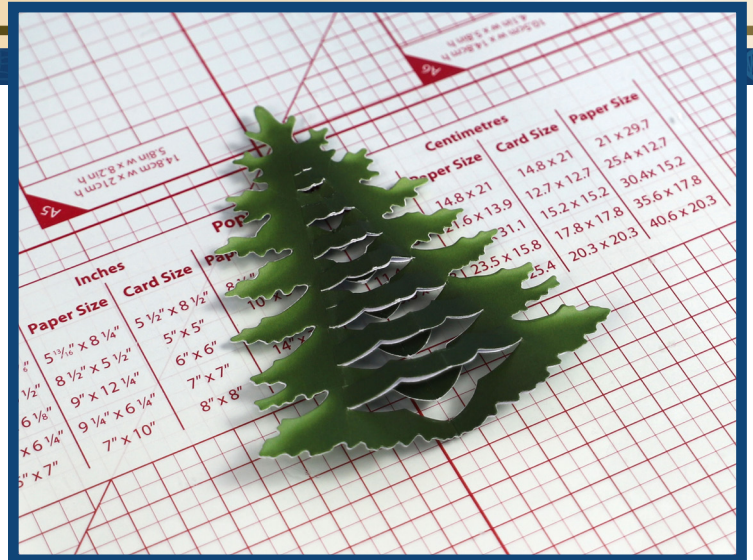

Cut four of the Christmas Tree.

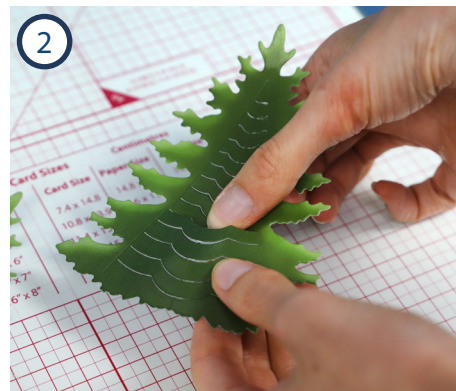

Score and valley fold each die cut into right angles as shown.

Stick the trees together to create the Christmas Tree.

See overleaf for an alternative way to use the Christmas Tree die set

Tattered LACE®

3D Miniatures Christmas Tree

1

Cut two of the Christmas Tree.

2

Bend the curved sections in alternating directions so that they protrude forwards and backwards in a pattern. Do the same for the remaining tree, but in the opposite pattern.

3

Stick the trees together.
