

3D Miniatures Piano

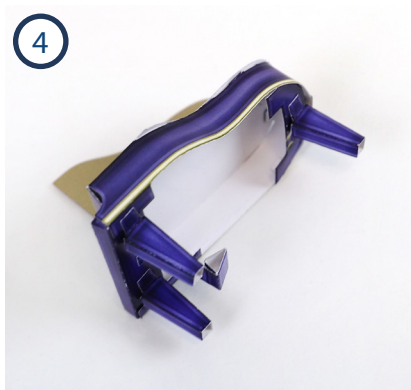

1
Cut the A and B dies together to create the Piano top. Cut three E dies, and one D, F, H, and I. Cut an extra Piano lid without the pattern as shown.

2
Fold and assemble the Piano top using the small tabs secured to the underside. Curve the sides to follow the shape of the top.

3
Fold and assemble the remaining Piano pieces as shown. Stick the two lids together with the patterned lid on top.

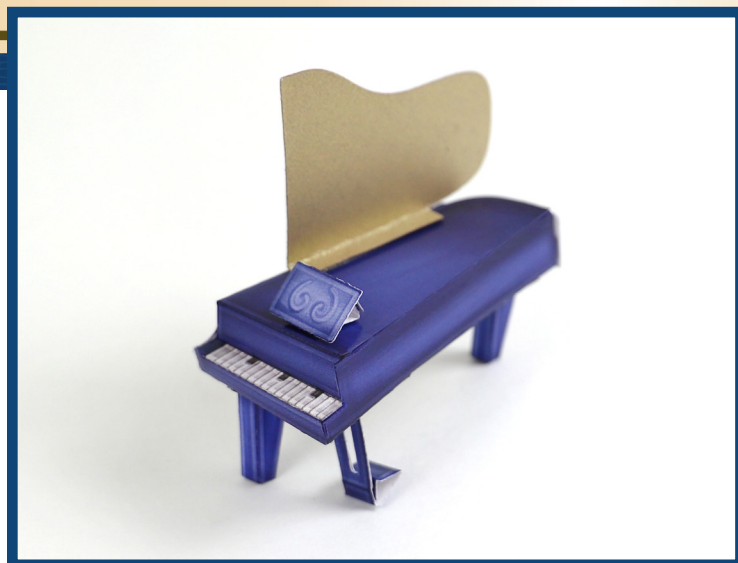

4
Add the legs to the underside of the Piano and ensure they are even so that it can stand independently.

5
Add the lid and any remaining embellishments onto the Piano.

3D Miniatures Piano (Half)

1 Cut the A and C dies together to create the Piano top. Cut two E dies, and one D, F, G, H, and I. Cut an extra Piano lid without the pattern as shown.

2 Fold the long side of the Piano top and secure the tabs to the adjacent underside to hold it in place. Fold and bend the keyboard and secure on the underside of the top as shown.

3 Stick the side (G die cut) onto the open side of the Piano top.

4 Fold and assemble the remaining Piano pieces as shown. Stick the two lids together with the patterned lid on top.

5 Add the legs and lid onto the Piano.

6 Add the H die cut and any remaining embellishments on top.
