

8x8 Brilliant Book Hole

1. Cut the largest square die twice from your chosen cardstock, with the hole punch die positioned near one edge of each piece.

2. Cut the pindot square die as many times as desired depending on how many pages you would like your book to have, with the hole punch die positioned near one edge of each piece.

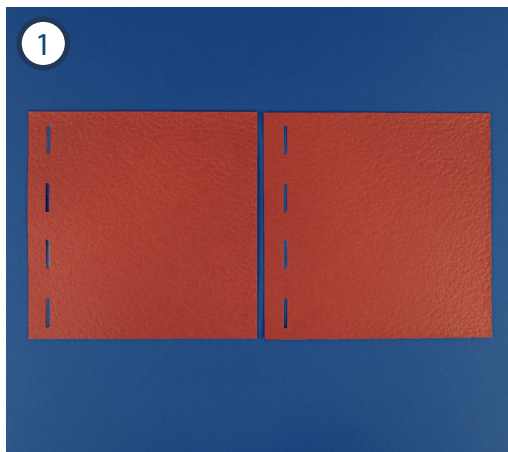

3. Line up the holes on the die cuts, then tie ribbon through each of the holes as shown.

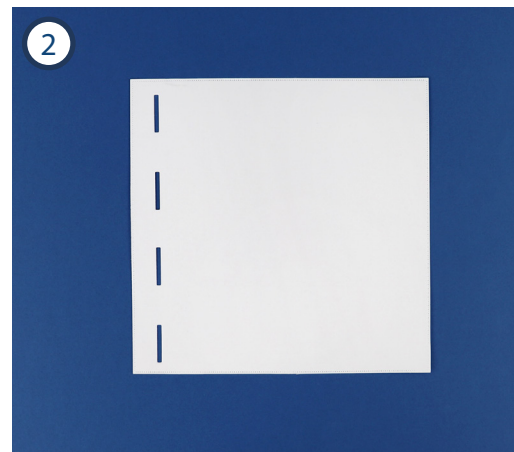

Top Tip

Instead of using ribbon, you can use metal rings to hold your book together.

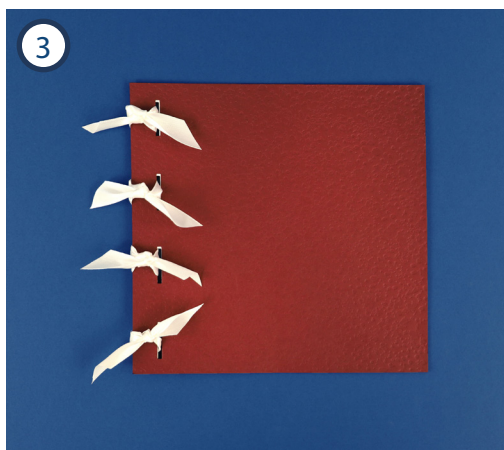

8x8 Brilliant Book Slot

1. Cut the largest square die twice from your chosen cardstock, with the slot punch die positioned near one edge of each piece.

2. Cut the pindot square die as many times as desired depending on how many pages you would like your book to have, with the slot punch die positioned near one edge of each piece.

3. Line up the slots on the die cuts, then tie ribbon through each of the holes as shown.

Top Tip

Instead of using ribbon, you can use metal rings to hold your book together.
