

# Debutante

## Adeline/Clara/Estelle

- The Debutante collection is an embracement of the beauty of women and is designed to help make your own Art Nouveau masterpieces.
- Cut your cardshape from your chosen cardstock, then mat and layer it with backing papers and apertures. Backing papers can be found on the Debutante USB to print.
- Cut either the Adeline or Clara or Estelle die with it's Charisma with the option to mat it on top of the corresponding background die to create the main focus of your card project.
- Embellish your cards with elements from the Debutante USB or floral dies from the Debutante collection with Charisma. Don't forget to add a special sentiment for your recipient to complete your card.
