What you need to do:

1 Cut and fold white cardstock to create a 17.5cm x 14cm card. Cut a rectangle from the Christmas complementary backing paper measuring 15cm x 12.5cm and mat onto red cardstock measuring 15.5cm x 13cm. Mat the layers onto the card.

2 Cut a left orientated circle into white cardstock measuring 14cm x 11.5cm. Using the Christmas sentiment stamp, stamp the sentiment onto the bottom of the card as shown. Wrap red ribbon around the white cardstock, above the stamped sentiment and secure on the back with ultra-sticky tape.

3 Using the Tattered Lace® Trio™ dies, cut the Christmas rose from white and red cardstock and the Christmas leaves from green cardstock. Emboss the die cuts and build the flowers as shown. Using the Build a Bird Phoenix die, cut from gold mirror cardstock.

4 Mat the Christmas flowers around the aperture. Tuck the Christmas leaves, floral embellishment and the tail of the bird under the Christmas roses. Mat the white cardstock onto the card with foam tape as shown.

5 Use the red ribbon to create a four loop bow. Mat the bow onto the ribbon and finish with the round pearl gem.

6 Mat the faux pearls into the Christmas roses as shown.
