

Dapped Pony

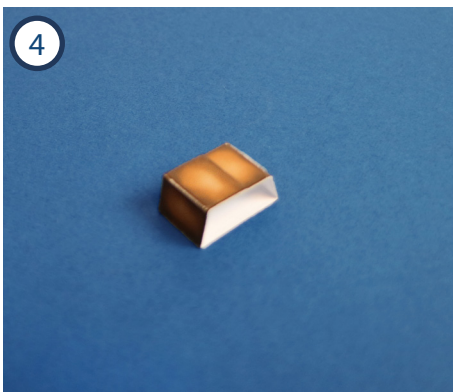

1 Cut one A, C, D, E, and F die. Cut two B dies from your chosen cardstock. Cut any of the optional X dies as desired.

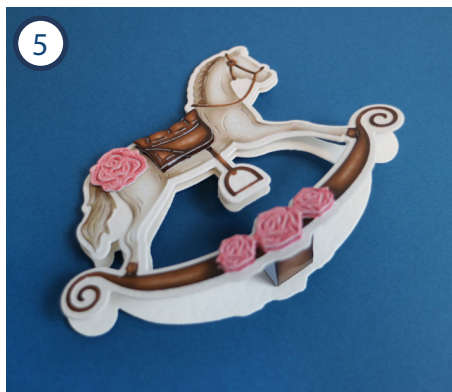

2 Stick the pony onto one of the mat layers.

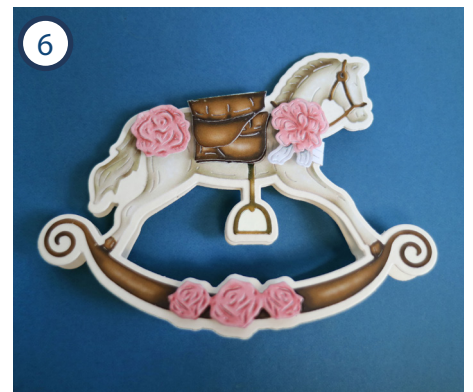

3 Decorate the pony by attaching the saddle (die cut C) and flowers (die cuts E and X if used). Use foam tape for extra depth.

4 Fold die cut F into a loop and secure with tape or glue to create a spacer.

5 Stick the spacer between the decorated mat layer and the remaining mat layer as shown.

6 Add any extra embellishments as desired. To create a double-sided card, cut another pony facing the opposite direction to the first and stick on the other side.
