

Deco Gatefold Card

1. Using the main Deco Gatefold Card die, cut one from your chosen cardstock.

2. Using the score lines on either side of the card, fold the sides in towards the centre (this fold is called a valley fold).

3. Using the decorative dies in the Deco Gatefold die set, add mats and embellishments to decorate. For example, cut Deco Panel 1 and layer over Mat 1 as shown.

Here's a little more inspiration to show different ways of using the Deco Gatefold die set.
