

MAGICAL MOMENTS

Tattered
Lace[®]

SEASON'S GREETINGS

What you'll need:

- Tattered Lace Magic Moments Collection dies and Charisma:
 - Scene
 - Snow Globe
- Craft Master Pure Print 300gsm White Cardstock (for the card base and the snow globe)
- Craft Master Pure Print 250gsm White Cardstock (for the Charisma)
- Craft Master 12" x 12" Card Pack – Cherry Bakewell
- Craft Master Shimmer & Sparke Glitter
- Rare Earth Festive Sentiments stamp set
- Texture paste

- 1** Place an A4 piece of white 300gsm cardstock in front of you with the shorter side on the horizontal. Measure 8cm up from the bottom edge and score and fold the cardstock.
- 2** Place the mat layer die from the largest snow globe onto the folded cardstock, positioning it so that the top of the snow globe slightly overlaps the fold. Run through your die-cutting machine. You will have a tent fold snow globe-shaped card base. Don't worry that you only have the top section of the back of the card base – it is meant to be this way.
- 3** Download, print and die-cut all of the elements you will need to create your composition.
- 4** Trim a piece of white 300gsm cardstock to measure 20cm (w) x 17cm (h).
- 5** Open the snow globe-shaped card blank and place it on top of the cardstock rectangle that you created in Step 4. Position the spine of the snow globe card blank so that it lines up perfectly with the top of the cardstock rectangle. Glue the inside-back of the snow globe card blank to the front of the cardstock rectangle. You will now have a rectangle with a snow globe flap that lifts up and down.
- 6** Trim a piece of background paper to measure slightly smaller than the white cardstock rectangle. Mat the background paper onto red cardstock and attach to the rectangle (ensuring that the snow globe is lifted up and out of the way).
- 7** Using our example as a guide, build up the scene using the die-cut elements. Start with a white 300gsm snow globe die-cut and build from there.
- 8** Highlight the snow using texture paste and glitter and add a ribbon bow and a stamped sentiment to finish.

WINTER WISHES

What you'll need:

- Tattered Lace Magic Moments Collection dies and Charisma:
 - Lychgate
 - Parish Church
 - Vintage Winter Wishes
 - Snow Globe
 - Scene
- Craft Master Pure Print 300gsm White Cardstock (for the card base)
- Craft Master Pure Print 250gsm White Cardstock (for the Charisma)
- Craft Master Shimmer & Sparkle Glitter
- Craft Master 12" x 12" Card Pack – Cherry Bakewell, Apple Pie
- Texture paste
- Card template download – available from tatteredlace.co.uk/downloads

- 1 Download the template to create your card base; to create the card base you will need two pieces of white 300gsm cardstock, each to measure 20cm x 40cm.

- 2 Once you've created the card base you will need to cut the following:

For the front of the card:

- Large Red Cardstock Frame – 19.5cm x 19.5cm (cut a 16.5cm x 16.5cm aperture in the centre)
- Backing Paper – 19cm x 19cm (cut a 17.2cm x 17.2cm aperture in the centre of the backing paper)
- White Cardstock Square – 14.5cm x 14.5cm
- Red Cardstock Square – 14.3cm x 14.3cm
- Backing Paper 14cm x 14cm

For the inside front of the card:

- Large Red Cardstock Frame – 19.5cm x 19.5cm (cut a 16.5cm x 16.5cm aperture in the centre)
- Backing Paper – 19cm x 19cm (cut a 16.5cm x 16.5cm aperture in the centre of the backing paper)

For the inside:

- Rectangle Mats – Four Red Cardstock Mats, each to measure 9.5cm x 19.5cm.
- Four Backing Paper Mats, each to measure 9cm x 19cm

- 3 Download, print and die-cut all of the elements you will need to create your card. We recommend die-cutting at least three of each die-cut to ensure you have ample elements to create the decoupage layers.
- 4 Using our example as a guide, mat and layer the backing papers together with the cardstock panels and frames and attach them to the panels on the card base.
- 5 Using our example as a guide, start to build your scene, starting at the back and working your way forwards. Use the additional die-cuts of each element to create decoupage layers and to add depth and dimension.
- 6 Add a layered die-cut sentiment and highlight the snow using texture paste and glitter to finish.
