

Merry Go Round

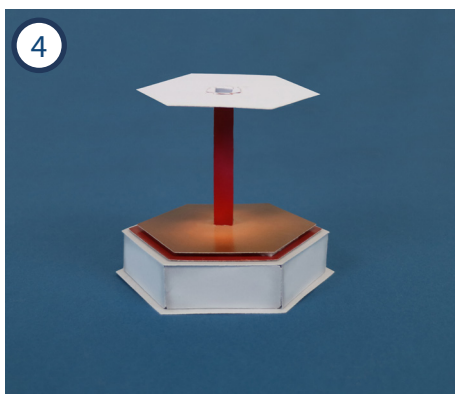

1 Cut dies A, B, C, and G once. Cut die D twice. Cut six die E, four die F, three die H and six die I. Cut the optional banners and bows as desired.

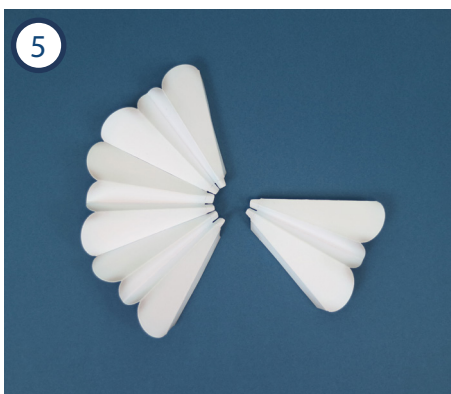

2 Cut the square into the centre of both D die cuts. Assemble the central pole (die G) by folding into a tube and securing with the tab.

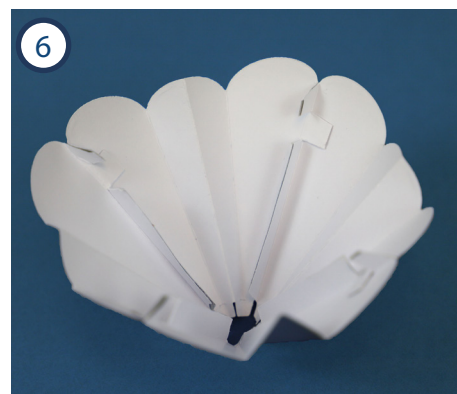

3 Stick the hexagons with square holes onto either end of the pole.

4 Create the base by sticking the E die cuts onto the B die cut. Stick together using the tabs as you work.

5 Alternate valley and mountain folds on the roof pieces (F die cuts) as shown. Begin to stick together using the side tabs.

6 Stick the pieces together until you have a completed conical roof.

Merry Go Round

Stick the roof onto the Merry Go Round and decorate with the horses, poles, and embellishments.
