DELICATE BIRDHOUSE

These steps are to create a simple Birdhouse. Please cut any lace detail or apertures into your pieces before building.

1 To create the Birdhouse you will need, 1 Front, 1 Back, 2 Roofs, 2 Sides and 1 Base piece. Please the Front and Back piece are the same die, and the Roof and Base piece are the same die.

2 Fold along all the score lines on the Roof, Side and Base pieces and arrange in the order shown in the image.

3 Attach each piece to the next using the tab.

4 Complete the outer edges of the Birdhouse by attaching the last tab to the other end.

5 Attach the Front piece onto the Base tab.

6 Attach the Front piece to the Roof and Side tabs. Push the Sides in to meet the edges of the Front piece.

7 The Sides and Roofs should follow the line of the Front piece and the eaves will over hang.

8 Repeat the same process as the Front piece for the Back piece.

9 Once dry, decorate your Birdhouse as desired.
