

Picture Window Instructions

Using the picture window die, cut one front, one back and two side panels.

Using the rectangle die, cut an aperture in the centre of the front panel and cut the windows in both side panels with the square die.

Using the ornate detail, cut into all of the scalloped edges on the front, back and side panels.

Crease and fold on the score lines to make sides for the picture window card ensuring you fold the ornate detail score line outwards and the front and back scorelines inwards.

Line up and glue the scalloped edges of the side panels with those on the back panel.

Line up and glue the scalloped edge of the front panel onto those of the side panels to complete your picture window card.
