

# Using The Pop Up Word Dies

1. Using your chosen pop up words die, place the die in the middle of your chosen cardstock and secure in place with low tack tape.

2. Run through your die cutting machine to show the cut out words and score lines.

3. Use a ruler to help fold along the score lines of the pop up words. Valley fold the first score line, then mountain fold the second that is on the top of the letters.

4. Continue this folding technique on all of the score lines to create a pop up word card.
