

# Silhouette Box Frame (1)

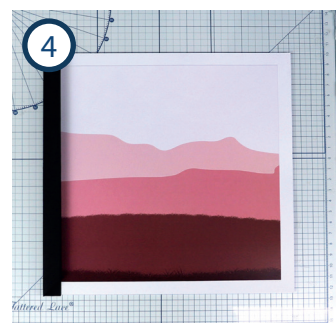

1. Cut four box frame sides from your chosen cardstock.

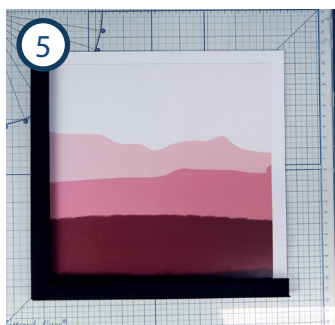

2. Fold up the pieces to assemble the sides and secure.

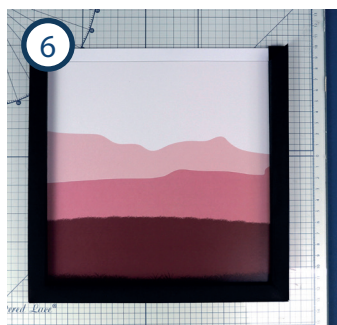

3. Cut a back for your frame and decorate as desired. Try putting the box sides together without tape or glue to judge the fit.

4. Stick one of the sides onto the frame back.

5. Slot the next piece into the end and secure.

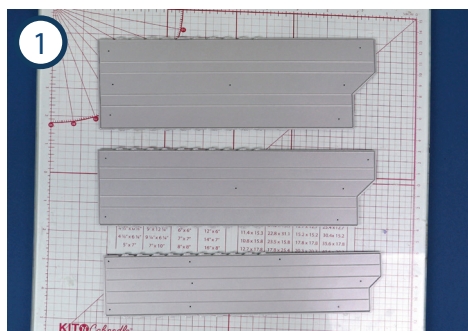

6. Continue with the next side piece.

7. Slot the final piece into place and secure to complete the frame.

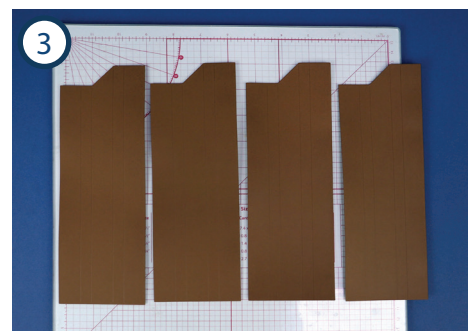

# Silhouette Box Frame (2)

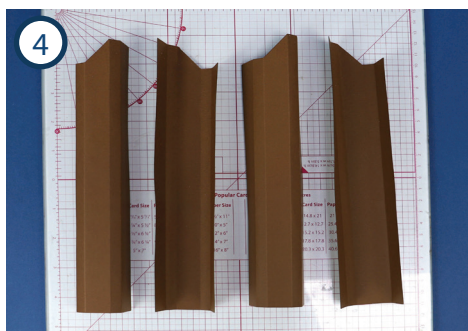

1. Choose your desired width for the box sides.

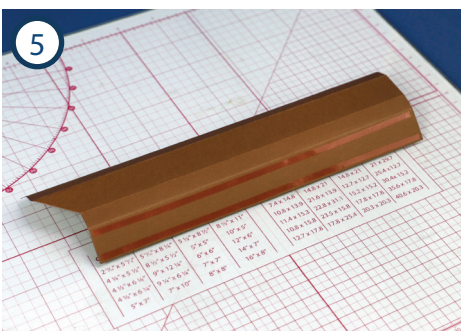

2. Use the notches in your chosen dies to measure the lengths of the pieces, and to ensure they cut correctly as they run through the die cutting machine.

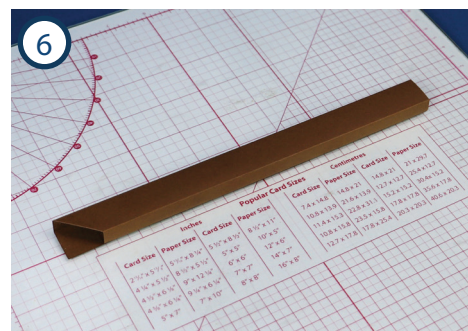

3. Cut the four sides of the frame from your chosen cardstock.

4. Fold up the sides by folding along the score lines.

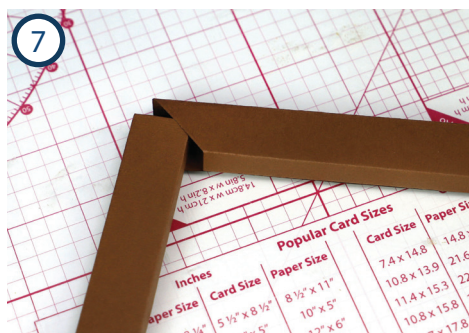

5. Add double-sided tape to the pieces.

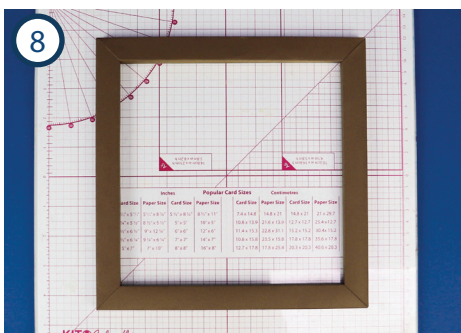

6. Fold up and secure.

# Silhouette Box Frame (Set 2)

7. Slot the side pieces together and secure.

8. Continue until the frame is completed.
