Shopping list:

- White Card stock
- Glitter
- Foam Pads

You will also need glue

What you need to do:

1 Use a white creased 6inch square card. Fold the front in half lengthways. Fold the end panel in half again lengthways. Fold the edge of the card in by 0.5inch and concertina on the creases.

2 Cut out a topper and some elements from one of the designs.

3 Cut a mat from one of the paper designs 5.75inch by 5.75inch and stick to the inside of the card.

4 Mat the topper onto a piece of white card. With your scissors follow the shape of the topper but leave a 0.25inch space so that the matter is bigger than the topper. Stick topper and elements to the edge front of the card.

5 Finish off with some glitter for that extra bit of sparkle.

Top Tip

Back the topper with card to give it more substance.
