

Steampunk Pop Up Box

1. Using the Steampunk Pop Up Box die set, cut the box base from your chosen cardstock.

2. Fold along the score lines as shown and mat the tab onto the corresponding side to create the pop up box. Fold down the three flaps ensuring one at the back is straight.

3. Mat the tabbed strips onto the inside of the box. Cut mats from a steampunk backing paper and mat onto the box with foam pads. Using the Steampunk embellishment dies from this die set, cut from black and gold mirror card. Rub the edges of the black die cuts with gold gilding wax. Cut strips of acetate and mat the die cuts onto one end and mat the strips onto the tabbed strips inside the box. Decorate the box with other embellishments and a sentiment.
