

# Takeaway Carton

1  
Cut the Carton from your chosen cardstock.

2  
Fold the solid tabs (without slots or indents) into the centre of the Carton to meet. Rescore the diagonal fold lines in the die cut to make them fold easier.

3  
Fold the remaining two tabs into the centre, ensuring the four peaked folded sections (top and bottom left and right as shown in step 2) overlap on the outside of the box.

4  
Interlock the slotted tabs as shown to hold the box closed. Decorate with your chosen embellishments.
