

Tales of Interest Card Shape

Adhesive Bound Album

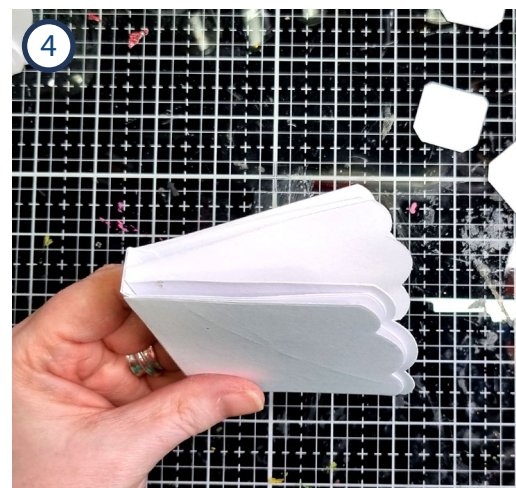

1 Cut 6 x mats and 3 x spines to create two of the spines. Trim the spine tabs off to create a narrower spine. Score these spines to create tabs for the pages to glue to.

2 Stick two mats to the spine using the two tabs. Repeat this for the inner pages. place your adhesive on the bottom of the pages as shown.

3 Build the pages as shown in the image starting with the smallest spine working your way out.

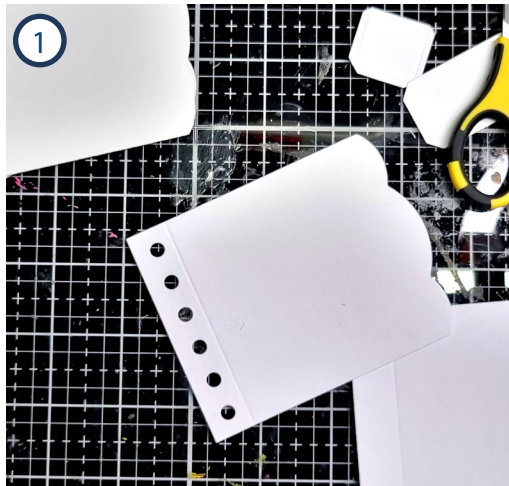

4 Stick the pages inside the cover at the spine to complete your adhesive bound album.

Tales of Interest Card Shape

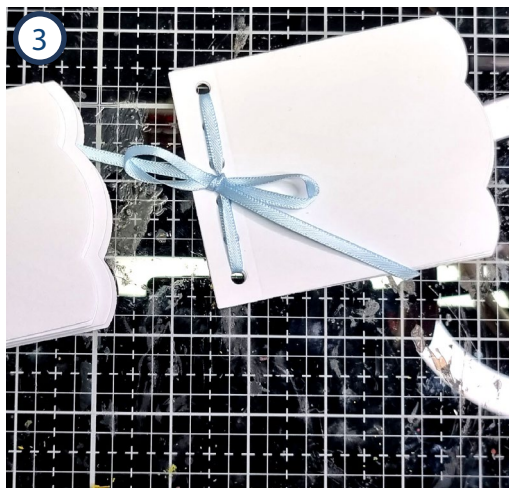

Ribbon Bound Album

To create a page for your album cut the larger mat die with scoreline together with the ribbon holes die along the spine.

Repeat step one for the amount of pages your require. Take some thin ribbon and thread it through the holes as shown.

Tie the ribbon on the front into a bow to secure your album together.

Top Tip: The beauty of using a ribbon bound album is you can easily add more pages at any time as your story grows.
