

To and Fro Dies

1. Cut one of the card shape and one Bracer from your chosen cardstock.

2. Concertina fold the Bracer and mat onto the front of the card shape die cut.

3. Cut another card shape with the accompanying embellishment dies from your chosen cardstock.

4. Mat the card shapes together, ensuring the Bracer is connecting them at both ends. Hang the embellishment dies by their hooks onto the small holes in the card shape. If the card is too light, try matting a penny onto the back of the card front to add extra weight.
