

Wild Silk Card

What You Need:

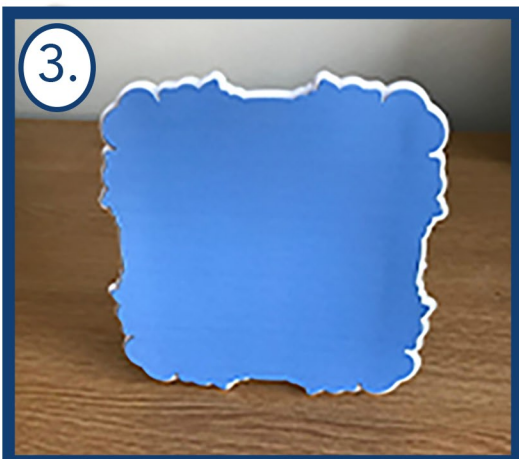

- * Tattered Lace Taser Set
- * Tattered Lace Cornflower Iris 3D Decoupage Collection
- * Download Charisma
 - * White cardstock
 - * Blue cardstock

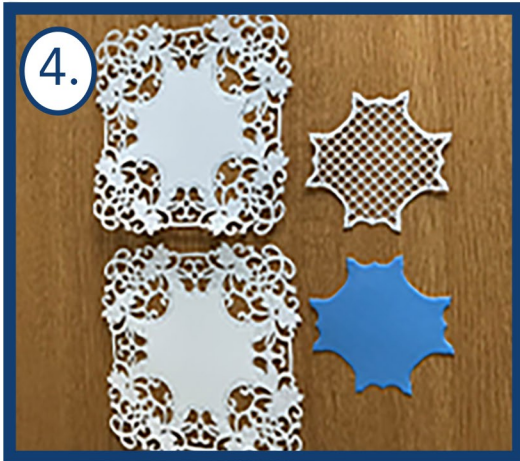

Using the Taser Set, cut two from the largest die with white cardstock.

Score across the top of one of the die cuts, approximately 2cm from the top. Attach double sided tape onto the top of the score line and stick to the back of the remaining die cut to create the card.

Using the next die down from the set, cut one from blue cardstock and stick onto the card with foam tape.

4. Cut two large decorative frames from the set from white cardstock. Cut the mesh die from white cardstock and the final die from blue cardstock.

5. Stick the white frames onto the front of the card with foam tape.

6. Using the Cornflower Iris 3D Decoupage Collection, cut two Cornflower Iris Crescent dies from the Charisma. Decoupage the flowers together to create two crescents.

7. Stick a crescent onto the top left corner and the remaining crescent onto the bottom right corner with foam tape. To finish, add a sentiment onto the centre of the card.

Why not try and use the same style with the Tattered Lace Mulberry Set and the Tattered Lace Strawberry Crescent Set?
